GRY BONBONNIERE

SIZE Ø:11CM H:15CM

Colours: Clear

A sparkling new addition to the popular Gry series – the bonbonniere is both decorative and functional, featuring a lively textured surface and a gently rounded lid. Fill it with your favorite sweets, nuts, or tiny treasures, and let it bring charm to your autumn table or seasonal styling. Each bonbonniere comes with a white fabric ribbon that can be tied to the small loop on the lid – or replaced with your own ribbon to match the season or your personal style.

Liliané is a tribute to modern elegance rooted in a neo-romantic sense of form. With its hexagonal base, the vase captures a contemporary, architectural expression, while the trumpet-shaped silhouette gently opens upward—like a flower in full bloom. The result is a beautiful balance between geometric clarity and natural grace.

Flowers fall effortlessly into the vase, forming a soft, flowing arrangement where each stem is supported without feeling constrained. It's equally striking with a single branch or a wild bouquet.

Lilian is available in two heights – 18 cm and 28 cm – to suit various flower types and interior spaces. A timeless collection where the modern meets the romantic – with effortless grace.

LILIANÉ VASE 28CM
