ACORN VASE

Elegant and innovative, the Acorn Vase lets you witness the first year of a tree's life as a tiny acorn transforms into a young oak tree.The oakling can live in the vase for up to a year, drawing essential nutrients from the acorn itself. Once matured, it can be planted outside to grow into a tree, and the vase can be reused with a new acorn.

Perfect for urban dwellers, tree lovers, inquisitive children and design enthusiasts who want to bring the magic of nature into their home and help nurture oak trees for future generations.

AVOCADO VASE

The Avocado Vase's simple form, inspired by minimalism, timelessness and functionality, lets you observe an avocado seed from a shop-bought fruit as it grows, revealing the early life of a tree.

We have refined the traditional method by skipping toothpicks and shaping the opening to cradle the seed while keeping it dry. The spherical vase allows roots to spread freely and provides stability, while the specially crafted glass magnifies root growth in clear detail each day.
