ROSA GONZÁLEZ

FOUNDER OF RÖS SWITZERLAND

The Story Behind RÖS Switzerland

*The legacy of those
who taught us to
value the authentic.*

Born in Almería, in southern Spain, Rosa González grew up surrounded by nature. From a young age, she learned to value simplicity, creativity, and respect for the environment — principles that now define her brand.

She studied interior decoration and worked for years as a visual merchandiser and event decorator, creating spaces designed to inspire and move people. Every detail told a story.

The inspiration behind RÖS comes from a childhood memory: every week, Rosa made candles with her grandmother, reusing leftover wax and transforming it into something new. Those moments planted the seed for her creative path.

When she moved to Switzerland, the beauty of the landscapes and her connection with nature sparked an even greater inspiration.

Today, at 41, Rosa constantly studies materials, compositions, and results, convinced that a luxury product can also be deeply sustainable when every detail is carefully considered. Her passion for the olfactory world has led her to learn from some of France's most renowned fragrance houses, incorporating that knowledge into the aromatic identity of her creations.

RÖS combines design, sustainability, wellbeing, respecting people, animals, and the environment.

It is not just a fragrance brand: it is a way of experiencing nature and conscious luxury.

The Choice of Nature

Soy Wax, 100% Natural

No Additives

Nature inspires us. Soy allows us to respect it

At RÖS Switzerland, we believe that the materials we use matter as much as design or fragrance. That's why we choose soy as the foundation for our candles and aroma diffusers.

Soy is a renewable, plant-based ingredient that allows us to create products that are cleaner and more environmentally responsible. Unlike other waxes, soy wax does not release heavy residues or dark smoke, providing a purer experience indoors. This makes it a gentler choice for the home, especially in spaces shared with children and pets.

Its natural structure also retains and releases fragrances more evenly, filling the space with scents that are authentic and immersive. In candles, it burns more slowly and evenly, extending the enjoyment of every moment. In diffusers, its plant-based base ensures a more stable and natural fragrance diffusion, preserving the character of each scent. But our choice goes beyond the technical. Choosing soy means choosing responsible materials, carefully crafted processes, and a conscious way to bring wellbeing to the spaces where we live.

Every creation from RÖS Switzerland is born from this commitment: combining nature, quality, and design to transform the aroma of a space into an unforgettable experience.

The Essence of Natural Luxury

At RÖS Switzerland, we believe fragrance is more than a scent: it's a complete sensory experience, defining a space and transforming every moment. That's why our candles, diffusers, and sprays are crafted with 100% natural, vegan fragrances, carefully selected for their numerous benefits:

- 100% natural and vegan: free from animal ingredients and harsh chemicals, safe for the environment and your wellbeing.
- Exceptional intensity and longevity: each note is clear from the first moment and lingers for hours, filling any space with immersive, long-lasting aromas.
- Olfactory complexity: balanced blends of fresh, floral, woody, and spicy notes that evolve gently while you enjoy the product.
- Safe for everyone: suitable for children, pets, and adults, allowing any space to become a sanctuary of wellbeing without compromising elegance.
- Luxury and sophistication: every fragrance conveys a distinctive, premium character, turning every candle or diffuser into a luxury object.
- Emotional experience: more than a scent, our perfumes evoke sensations, memories, and emotions, making every moment unique.
- Compatible with all products: candles, diffusers, and sprays maintain aroma intensity, purity, and longevity without degrading over time.
- Commitment to sustainability: choosing natural, vegan fragrances is also a conscious choice for a more responsible world.

A scent that lingers, wrapping every moment

REED DIFFUSERS

OUR REED DIFFUSERS ARE CRAFTED TO DELIVER A LUXURY SENSORY EXPERIENCE. THEY FEATURE A PLANT-DERIVED, BIODEGRADABLE, AND NON-TOXIC DIFFUSION BASE, SPECIALLY FORMULATED TO ENSURE OPTIMAL FRAGRANCE RELEASE WHILE MAINTAINING THE INTEGRITY AND INTENSITY OF THE PERFUME.

EACH DIFFUSER COMES WITH SIX HIGH-ABSORPTION REEDS, PROVIDING CONTINUOUS AND EVEN SCENT DISTRIBUTION THROUGHOUT THE SPACE. THE FRAGRANCE OILS ARE VEGAN AND BLENDED AT A 25 % CONCENTRATION, THE MAXIMUM RECOMMENDED BY SUPPLIERS, MAKING THESE DIFFUSERS TRULY LUXURIOUS WITH LONG-LASTING, IMMERSIVE AROMA. THE COMBINATION OF A NATURAL BASE AND HIGH FRAGRANCE LOAD ENSURES AN EXCEPTIONAL RESULT: A PERSISTENT, ENVELOPING SCENT THAT IS ALSO ENVIRONMENTALLY CONSCIOUS.

Why Trust RÖS Switzerland?

In Küssnacht am Rigi, a small Swiss village surrounded by mountains and lakes, every one of our creations begins its journey.

Here, we believe that time is the most valuable ingredient. We do not strive to produce more — we strive to produce better. Every candle, diffuser, and home fragrance is crafted with care, attention to detail, and an unwavering commitment to quality.

We are fragrance manufacturers, specializing in the art of blending carefully selected scents. Every fragrance is the result of extensive testing, refinement, and balance. Creating unique compositions that evoke emotions, inspire memories, and enrich everyday living.

Our philosophy is built on respect—for our materials, for traditional craftsmanship, and for the environment. We use 100% natural soy wax, carefully selected premium materials, and responsible production methods that prioritize reusable, refillable, and long-lasting products.

For us, sustainability is more than choosing eco-friendly materials. It means producing responsibly, supporting local manufacturing, reducing waste, and preserving the value of handmade craftsmanship in a world increasingly driven by mass production.

Every piece leaving our workshop reflects the dedication of a team committed to continuous improvement while remaining true to its values. We innovate, refine, and evolve every day without compromising the quality and authenticity that defines RÖS Switzerland.

Choosing RÖS Switzerland means supporting Swiss craftsmanship, local manufacturing, and a company that believes excellence is achieved through patience, passion, and attention to every detail.

Because true luxury is not measured by quantity, but by the care with which something is made.

Thank you for trusting us and for supporting a more conscious, sustainable way of creating.
