REFILL YOUR BEAUTY – REDUCE YOUR FOOTPRINT.

Casa Refill is a Swiss refill brand for natural body and facial care. Our products are made in Switzerland and Mexico, combining natural ingredients, premium design and a strong commitment to sustainability.

We stand for a modern refill lifestyle that brings together conscious consumption, quality, aesthetics and longevity.

Liquid Care Products

Our liquid care products combine natural ingredients with an elegant refill concept. Shampoo, conditioner, body lotion and hand wash are offered in premium glass bottles with durable stainless-steel pumps and can be refilled again and again using our recyclable refill pouches.

Our three fragrance collections, Aloe, Miel and Rosemary & Mint, are produced in Switzerland and represent Swiss quality, timeless design and a responsible approach to resource conservation.

Solid Care Products

Our solid care products are effective, long-lasting and ideal for on-the-go. They offer a sustainable alternative to products in plastic packaging while supporting a conscious lifestyle.

The range includes shampoo bars, conditioner bars, body lotion bars, facial cleansing bars and shaving bars in the fragrances Cacao, Coco Vanilla, Herbal and Male / Female. These products are made in Mexico using natural, entirely plant-based ingredients.

Facial Care with Tepezcohuite

At the heart of our facial care collection is Tepezcohuite, a traditional tree bark extract from Mexico. For centuries, the Maya valued its skin-conditioning and regenerating properties.

Combining traditional botanical knowledge with modern formulation, this exclusive skincare collection offers a truly distinctive approach to natural facial care.

Collection: Tepezcohuite Facial Clean, Tepezcohuite Facial Serum, Tepezcohuite Day Cream, Tepezcohuite Clay Mask.

Travel Sets

Our Travel Sets combine four solid care products in a premium cork case. Compact, plastic-free and reusable, they are the perfect companion for on-the-go or for discovering the Casa Refill collection.

Once the bars have been used, they can simply be replaced with new ones. This makes the Travel Set a long-lasting, refillable solution that combines functionality, design and sustainability.

Additional Care Products

In addition to our core collections, Casa Refill offers a selection of natural care products for the face, body and hair.

Highlights:

- Loofah Shower Soaps
- Vanilla Sugar Body Scrub
- Facial Cleanser Aloe Vera & Blue Agave
- Jojoba Green Clay Mask
- Anti Wrinkle Cream
- Hair Pops (hair masks)
